

BUNKER TRADER TRAINEE

Do you want to start your career in a global dynamic industry full of opportunities?
BlackCoral Energy is looking for Bunker Trader Trainees for the Monaco office

Where to start?

Some people know very early on that they want to be fire fighters, doctors or teachers. For many others the path is less clear. If you know that you want to work with sales, work in an international setting within fuel trading and shipping, involving significant amounts, being given a lot of responsibility, the chance to learn, the path to grow, the opportunity to travel or live in other countries then look no further.

BlackCoral Energy

BlackCoral Energy is a young and growing company. We have offices in Monaco and Miami with plans to open offices in Dubai and Singapore within the next 2-3 years. By taking on young, motivated talent and provide you with industry-specific training while working your own portfolio we build resources, who take on important roles and increased responsibility in our new offices – if the desire to live abroad is there. This ensures that we have a more uniform culture and BlackCoral Energy way of doing business.

You

We are looking for fresh graduates from a business education or persons, who have started a sales job, but feel that there could be more out there. It is important for us that you are driven, find it easy to approach and communicate with others, set high standards for yourself, speak and write English fluently.

The Process

We will provide extensive training during the first 6 months while involving you in the daily business. At the end of these 6 months, we will review your development and if you are on the right path then you will be offered a permanent position as Junior Bunker Trader.

To apply please send your application to energy@blackcoralenergy.com and if you have any questions, please do not hesitate to contact Jesper M. Christensen, Managing Partner, on +33 6 80 86 60 70.
